Analysis with YANK

- You can also generate a simulation report in the form of a jupyter notebook
  - yank analyze report --store={experiments} --output={mynotebook.ipynb} {--format ipynb}
  - Let's look at examples
    - https://github.com/choderalab/yank/blob/master/Yank/reports/YANK_Health_Report_Example.ipynb
    - https://github.com/daveminh/Chem456/blob/master/static_files/tutorials/bromodomains-YANK/3mxf.ipynb
